

Cashless Kiosk

Touch screen with PayWave reader

FEATURES

Designed in Australia, the touch screen kiosk is simple and user friendly.

Users are guided through a 4 step process to credit and start a machine, with one process naturally flowing onto another, ending in the customer simply tapping their card on the reader to make payment. The kiosk accepts AMEX, MASTERCARD, VISA, ANDROID PAY, APPLE PAY or EFTPOS payments.

This elegant and reliable system is far more cost effective compared to installing multiple expensive card readers.

KIOSK

Simple, elegant solution that seamlessly guides users through the flow to credit any machine in the laundry.

A single kiosk is usually all you need however for large sites, additional kiosk screens can be installed side by side.

The system is "plug 'n play" and the kiosk comes pre-configured for your laundry so the installation is simplified without the need for data points and cables. Just turn on the power and users can start using PayWave to operate the machines immediately.

SECURE

Data is fully encrypted and PCI DSS compliant. With bank grade security, data is locked down tight so users can feel safe that their details are going nowhere.

TECHNOLOGY

With over the air updates and a cloud hosted solution, you can be assured that your software is always up to date.

REMOTE START

Machines can be remotely started in case of a user complaint.

OVERVIEW

- Accept VISA, AMEX, MASTERCARD, ANDROID PAY, APPLE PAY with the convenience of "tap n go" or chip insert.
- System includes Touch Screen Kiosk with commercial grade screen protector, modem and software. Free auto upgrades over the air.
- Free inclusion of mobile GoCashless payment app.
- Daily, weekly or monthly activity reports with FULL auditing trail.

Commercial Laundry Rentals supplies the PAYPONT system on our rental laundry equipment FREE OF CHARGE to you. We share the income derived from the machines and pay you your agreed share as per our rental agreement.

PAYPONT SYSTEM PURCHASE and RENTAL options available.

If you own your machines, regardless of brand, we can supply the hardware for a cashless system for either purchase or monthly rental. We can retro-fit our system to old models as long as they are electronic machines.

For more details on purchase or rental pricing and ongoing subscription telemetry and transaction fees, please contact us.
